

**Reduced height
waste outlets for
kitchen sinks**

**Wide range of solutions to save
space under the sink**

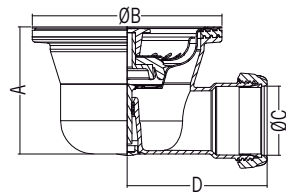

Ø115 mm basket valves with horizontal outlet

The new basket waste horizontal outlets, allow a direct connection to the collector drain, taking up less space under the sink, then increasing the storage area.

These models incorporate the integrated joint system **JUNTAFIX**.

Waste outlet

With the new basket waste with horizontal outlet, low height is achieved to maximize storage space under the sink.

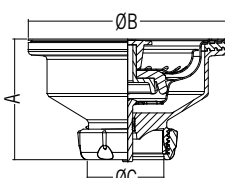

Directly installed with the collector, moves the trap set close to the wall connection.

Ø115 mm basket valves with vertical outlet

The basket waste outlets incorporate the **JUNTAFIX** integrated joint system, which avoids risks of leaks caused by improper joints adjustments and makes easier their assembly. Compact design and reduced height.
