

CHANGING WITH YOU

# LINNUM WALL

## Vertical gully for tiled showers

## VERTICAL GULLY FOR TILED SHOWERS

---

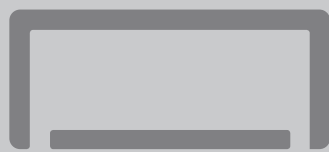

LINNUM WALL SERIES

---

New solution in line with the latest design trends in bathrooms.

3 different covers available, stainless steel, stainless steel with a tilable frame and white ABS.

An elegant and quality product to give a touch of class to the bathroom.

LINNUM WALL

LINNUM WALL SERIES

# DESIGNED THINKING OF YOU

Specific solutions for the latest bathroom trends.

LINNUM WALL SERIES

## LINNUM WALL SERIES

---

### DESIGN RELIABILITY ACCESSIBILITY

---

The main feature of Linnum Wall is the wall drain system on its own, eliminating the possibility of water accumulation when stepping onto the floor grid in the classical systems.

The exclusive metal clamping technology used in the Linnum wall series ensures its complete water tightness.

The cover magnetic fixing system facilitates the access and removal of the trap for maintenance tasks if needed.

## INFINITE POSSIBILITIES

The fill-in frame model in the Lignum wall enables the installation of personalized finishing in your shower enclosure.

You can obtain a smooth finishing aligned with the bathroom design by using the same material than the one used with walls and floor.

# A WIDE RANGE OF POSSIBILITIES

A wide range of solutions with 6 different lengths, 2 water seal heights and 3 cover solutions designed to solve any situation. As an option a LED light version could be used to create custom environments.

## 3

### GRID DESIGNS

White ABS version.  
Stainless Steel version.  
Stainless steel with a fill-in frame version.

3 different covers are available: Stainless steel, White ABS, and a Fill-in frame, to match wall tiled material.

## 2
