

**CLICK-CLACK**  
universal system

# CLICK-CLACK universal system

Jimten presents the new Click-Clack **universal (\*) closing / opening system**, which can be adapted to wash basin or bidet waste outlets.

(\*) Thanks to its fixation system, the cover, the closing joint and click-clack mechanism, can be mounted onto any Jimten waste outlet model with a  $\varnothing 63 - \varnothing 70$  mm grid.

## Waste outlet characteristics:

### Materials:

- $\varnothing 66$  mm cover made in chrome plated ABS.
- Click-Clack system injected in high resistance acetylic resin.

Tested for over 100.000 operating cycles.

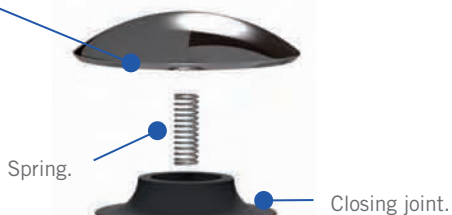

Available in chromed plated ABS or white PP body versions, with 1 1/2" (40 mm) or 1 1/4" (32mm) outlets.

Integrated water tightening joint JUNTAFIX (in S-540, S-542 & S-543 models).

Model S-541 has a transparent joint which conveniently fits crystal glass washbasins or visible installations.

$\varnothing 66$  mm chrome plated cover.

M6x100 mm spring.

Click-Clack mechanism.

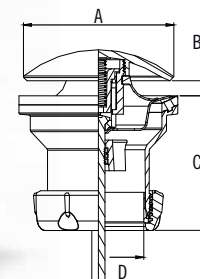

Stainless steel grid  $\varnothing 63$  or  $\varnothing 70$  mm.

Waste outlet body.

1 1/2 " or 1 1/4" Nut & joint.

## S-540

Waste outlet with Click-Clack cover

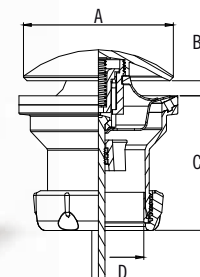

Ref.	A	B closed / opened	C	D	u./ $\square$	n $^{\circ}$ $\square$	€
