CLICK-CLACK
universal system

CLICK-CLACK universal system

Jimten presents the new Click-Clack **universal (*)** closing / opening system, which can be adapted to wash basin or bidet waste outlets.

(*) Thanks to its fixation system, the cover, the closing joint and click-clack mechanism, can be mounted onto any Jimten waste outlet model with a Ø63 – Ø70 mm grid.

Waste outlet characteristics:

Materials:

- Ø66 mm cover made in chrome plated ABS.
- Click-Clack system injected in high resistance acetylic resin.

Tested for over 100.000 operating cycles.

Available in chromed plated ABS or white PP body versions, with 1 ½" (40 mm) or 1 ¼" (32mm) outlets.

Integrated water tightening joint JUNTAFIX (in S-540, S-542 & S-543 models).

Model S-541 has a transparent joint which conveniently fits crystal glass washbasins or visible installations.

Ø66 mm chrome plated cover.

Spring.

Closing joint.

M6x100 mm spring.

Click-Clack mechanism.

Stainless steel grid Ø63 or Ø70 mm.

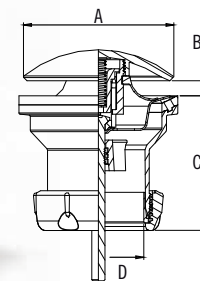

Waste outlet body.

1 ½ " or 1 ¼" Nut & joint.
